
AIRO HOT AIR PELLET HEATING BOILER

➤ **GRANDEG AIRO.**-It's meant for warehouses, manufactures and other areas in need of a simple yet efficient plug&play heating solution. The AIRO series pellet heating boilers are easy to install and move, and the hot air flow quickly heats up any area, right when it's needed.

➤ **AIRO boiler:**

- The AIRO heating boiler blows hot air, and with no water there is no danger of it freezing up during periods of idleness.
- Boilers with heat output of 40, 70, 100 and 150 kW are perfectly suited for warehouses, workshops, greenhouses, as well as other spaces and technological processes.
- Continuous air circulation enables prompt heating of even the largest areas.
- Automated control will maintain the outgoing air temperature of up to 200 °C.
- The heating boiler requires only a chimney, and the AIRO boiler can be used as a standalone or in combination with a ventilation system.
