

SOFTWARE FOR MOBILE AND FIXED RADIOMONITORING SKUDRA

- Core functionality of SKUDRA includes:
- Spectrum scanning
 - Automatic signal detection
 - Measurement data aggregation
 - Accumulated colour coded spectrum
 - Essential information at once
 - Spectrum user identification
 - Time plots
 - Long term storage

- Monitoring software SKUDRA has been developed:

- to automatically detect radio signal, aggregate measurement results, possible user identification, data analysis, store results and visualize them in most convenient way;
- to draw conclusions about signal's origin and take further actions in a real time.

Core functionality of SKUDRA includes:

1. Spectrum scanning
2. Automatic signal detection
3. Measurement data aggregation
4. Accumulated colour coded spectrum
5. Essential information at once
6. Spectrum us...
