# SECURITY OPERATIONS CENTER

---

- A shield that protects your information, data and IT systems from security threats, anytime.

- Would OWISOC create a value for your organization?

- **Undisturbed functioning of IT systems** is critically important for your organization.
- Your organization performs a **significant amount of data processing**(incl. personal and sensitive data).
- **IT security incidents would cause a significant harm** to your business and organization.
- Security management processes in your organization should be **structured according to best practices and standards**.
- It is important that the information infrastructure in your organization is **monitored by certified and experienced IT security experts**.
- You would be interested in being able to **predict and project an investment needed** for IT security in longterm.

24x7 and 360-degree proactive security operations...
